📍 **96/6 Thanh Xuan 25 Street, Thanh Xuan Ward, District 12, Ho Chi Minh City**

SKILLS

● **Programming Languages**
JavaScript, TypeScript

● **Backend Framework**
Node.js, Express.js, NestJS

● **Databases**
MySQL, ORM (Sequelize, Prisma)

● **Frontend Technologies**
HTML, CSS, JavaScript

● **Version Control**
Git, GitHub

● **Language**
English

CERTIFICATIONS & COURSES

June 2024: Google Cloud Computing Foundations Certificate Issued by Google Cloud

August 2024: Backend Development with Node.js, CyberSoft Academy

OBJECTIVE

As a recent graduate with a Bachelor's Degree in Information Technology, I am seeking an internship opportunity to apply my knowledge in backend development and database management. My goal is to gain practical experience in software development while aiming to become a skilled backend engineer and eventually transition into DevOps.

EDUCATION

● **University of Transport Ho Chi Minh City**

Bachelor of Information Technology   Oct 2020 - Sep 2024

- GPA: 3.05/4

PROJECTS

● **Airbnb (Personal Project)**

Duration   September 2024 - Now

- Description: Airbnb is an application that allows users to search for, book, and rent homes, apartments, rooms, and other types of accommodations.
- Technologies Used: Node.js, Express.js, MySQL, Sequelize, JSON Web Token (JWT), Cloudinary.
- Role: Backend Developer, responsible for building the source code, connecting the database, writing APIs for the entire project, and testing APIs with Postman.
- Link: https://github.com/05k1/airbnb

● **YouTube Mini (Course Project)**

Duration   August 2024 - Now

- Description: This project is part of my participation in the Backend Node.js course at CyberSoft Academy. It utilizes various technologies for learning and practical purposes.
- Technologies Used: Node.js, Express.js, MySQL, Sequelize, JSON Web Token (JWT), Cloudinary, Prisma, socket.io.
- Role: Backend Developer, responsible for building the source code, connecting the database, and writing APIs for: user login and authentication, CRUD operations for videos and users, Facebook login and two-factor authentication (2FA), unit testing with mocha, chai and API testing with Postman.
